PROFILE

B.Tech Information Technology student with hands-on experience in Full Stack Web Development using the MERN Stack. Skilled in building scalable web applications with strong problem-solving and team collaboration abilities.

EDUCATION

Year

K.C. College of Engineering & Management Studies & Research,Thane,Maharashtra — 2023 – 2027
Bachelor of Engineering in Information Technology (Mumbai University) | CGPA: 8.06/10

Maharashtra State Board (HSC) | Percentage: 75.33% — 2023
Maharashtra State Board (SSC) | Percentage: 89.20% — 2021

SKILLS

Languages: JavaScript, C++, Python, Java
Frontend: React.js, HTML5, CSS3, Tailwind CSS
Backend: Node.js, Express.js, REST APIs
Databases: MongoDB, MySQL
Tools & Technologies: Git, GitHub, Postman, VS Code

CERTIFICATIONS

- Full Stack Developer Training – SmartBridge (2025)
- Mongo Nodejs Developer Path – MongoDB University (2025)

PROJECT EXPERIENCE

GrowStart – Smart Startup Growth Ecosystem **Jul 2025 – Dec 2025**

• Developed a scalable startup collaboration platform featuring AI-driven growth pathways, analytics dashboards, talent marketplace, and secure authentication using MERN Stack.
• Built responsive web applications using React.js, Next.js, TypeScript, Tailwind CSS, MongoDB, Express.js, and Node.js.

FraudCheck – AI Powered Fraud Detection System **Jan 2026 – Apr 2026**

• Developed an AI-powered fraud detection platform using MERN Stack, Machine Learning models, anomaly detection, and intelligent risk scoring for real-time fraud analysis.
• Implemented secure REST APIs, JWT authentication, responsive dashboards, and Python Flask integration for scalable backend services.

MediConnect – Integrated Digital Healthcare Platform **Jan 2026 – Apr 2026**

• Developed a Flutter-based healthcare management application featuring appointment booking, digital prescriptions, emergency assistance, and medication reminder systems.
• Integrated Firebase Authentication, Firestore, cloud notifications, and role-based access systems for secure healthcare workflows.
